Our Sustainability Story

Generous fillings of natural and sustainable fibers are the essence of the Nature's Spa collection. Layers of natural cotton, a silk, wool and cashmere blend, recycled steel, natural latex, and CertiPUR-US® certified foams create a remarkable feel. Rest assured knowing only the finest natural and sustainable materials are cradling you to sleep.

Silk, Wool & Cashmere

Silk, wool & cashmere offers a long-lasting, soft and luxurious sleeping surface that naturally keeps you warm in the winter and cool in the summer.

Cotton

Naturally hypoallergenic, cotton provides soft support and wicks moisture away from the body.

Natural Latex

GOLS and Oeko-Tex certified, hypoallergenic and resistant and resistant to dust-mites, mold and mildew, latex gently lifts your body, conforms to your unique shape and distribute weight evenly.

Recycled Fiber Pad

Our recycled polyester densified fiber pad is manufactured from over 60% recycled bottles.

Recycled Cotton Fabric

The most sustainable 100% recycled yarn on the market. All waste is collected during the production process and 80% is reused.

Recyclable Coil Unit

High-density coil units made from recycled railroad steel.

We use the most sustainable 100% recyclable cotton, coil units made from recycled railroad steel and fiber pads made from 60% recycled plastic bottles.

We use GOLS (Global Organic Latex Standard) certified natural latex. GOLS certifies that the latex is organic in origin, socially justifiable, environmentally friendly, and traceable from plantation to retailer.

All of our foams are CertiPUR-US® certified to ensure they have very low VOC emissions and are free from ozone depleters, chemical flame retardants, mercury and other heavy metals, formaldehyde, and phtalates.

We use latex derived from the rubber tree. Our latex is certified STANDARD 100 by OEKO-TEX®, ensuring that it is free from chemicals harmful to humans and that environmentally harmful substances were not produced during the manufacturing process.

Paramount Sleep is an A+ Member of the Better Business Bureau.

Our products are designed, specified and made in the United States. We continuously work to reduce our environmental footprint in our factory and throughout our logistics network.

Earth Friendly.

Original Series

The Nature's Spa Original series provides exceptional feels and blends body conforming comfort and support allowing you to drift off into a blissful sleep. Offered in luxury firm, plush and euro top comfort levels.

Key Features

Recycled Cotton Fabric The most sustainable 100% recycled yarn on the market. All waste is collected during the production process and 80% is reused.

Cooling Gel Quilting Foam Oeko-Tex certified quilting foam adds pressure relief and provides more support throughout the mattress.

High Density Support Foams Provides a firm sleeping surface and more support and pressure relief.

Natural Latex GOLS and Oeko-Tex Certified, hypoallergenic and resistant to dust-mites, mold and mildew, natural latex gently lifts your body, conforms to your unique shape and distribute weight evenly.

1872 Pocketed Micro Coils Made from recycled steel, the 1872 pocketed micro coil transition unit instantly conforms to your body to reduce body impressions, provide maximum support and maintain ultimate comfort for you all night long.

High Density Foam Core The foam core allows for long-lasting support that virtually eliminates partner disturbance, counteracts any spring effect in the mattress and provides excellent support and pressure relief.

SPA
Original

Naturally Series

Good for you and the planet. The Nature's Spa Natural models feature the most clean and sustainable materials like natural fibers, natural latex, organic cotton and more so you can rest peacefully and enjoy a healthier sleep.

Key Features

Recycled Cotton Fabric The most sustainable 100% recycled yarn on the market. All waste is collected during the production process and 80% is reused.

New Zealand Wool and Cashmere Blend New Zealand sheep wool naturally regulates temperature and wicks moisture away. Cashmere wool, obtained from the Kashmir goat, is finer, stronger, softer, and approximately three times more insulating than sheep wool.

Copper, Silver & Gel Comfort Fiber Antimicrobial, antibacterial, dust mite resistant and helps conduct heat from the top of the mattress

Natural Latex GOLS and Oeko-Tex Certified, hypoallergenic and resistant to dust-mites, mold and mildew, natural latex gently lifts your body, conforms to your unique shape and distribute weight evenly.

Certified Organic Cotton Natural cotton fiber is lightweight, hypoallergenic, recyclable, and biodegradable. Used in textiles for more than 6,000 years, it keeps your sleeping environment cool and comfortable.

1215 Steel-Encased 13.75-Guage Pocket Spring Made from recycled railroad steel, the high density coil construction allows for more airflow, and combined with compression hand tufting, ensures optimum support across the surface for proper spinal alignment.

Naturally

Hybrid Series

Enjoy the best of both worlds with the new Nature's Spa Hybrid Line. This collection features firm, plush and euro top models; each with a distinct comfort feel. The hybrid units are compression hand-tufted, encased in natural latex, feature an 896 firm, 13.75-gauge, 3-zone pocket spring— the firmest coil unit available and are warrantied for 20 years.

Key Features

Recycled Cotton Fabric The most sustainable 100% recycled yarn on the market. All waste is collected during the production process and 80% is reused.

Compression Hand Tufting Creates loft that works against the body to reduce body impressions.

High Density Support Foams Provides a firm sleeping surface and more support and pressure relief.

896 Firm, 13.75-Gauge 3-Zone Pocket Spring The coil unit has a 13 ¾-gauge zoned pocket spring provides firmer support in the center third of the mattress while providing better conformability in the shoulder and knee regions.

20-Year Warranty The unsurpassed 20-year non-prorated warranty backs up the quality materials and craftsmanship.

Upholstery-Grade Foam Encasement Permanently seals the innerspring 360 degrees around to deliver a durable, comfortable seating edge and 20% more sleeping area.
