HANDCRAFTED LUXURY SINCE 1899

6463 Earl Firm

Blue Collection

Compression Hand Tufting

Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.

Latex Lumbar Support

14 ILD plush latex lumbar support provides extra support where you need it most, in the center third of your body, and virtually eliminates sagging in the center of the mattress.

Silk, Wool & Cashmere Blend

Silk, wool and cashmere naturally regulate temperature and wick away moisture. We add the perfect blend of these three natural fibers to the quilt to keep you comfortable, cool and dry.

Foam Encasement

Foam encasement permanently seals the innerspring 360 degrees around to deliver a durable, comfortable seating edge and 20% more sleeping area.

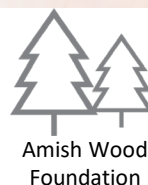

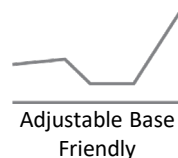

High Density Support Foam

High-density comfort and support foams create a firm sleeping surface and provides more support than standard foam. Better pressure relief allows you to more easily enter deep sleep for a great night's rest.

1074 Ergonomically Zoned Pocket Spring

Pocket springs move independently of each other to deliver the utmost support and comfort while also greatly reducing partner disturbance. Our 1074 zoned pocket spring unit supports the shoulder and knee areas and provides additional support in the center one-third of the mattress. The unit is steel encased for incredible edge support.

Compression Hand Tufting

Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.

Silk, Wool & Cashmere Blend

Silk, wool and cashmere naturally regulate temperature and wick away moisture. We add the perfect blend of these three natural fibers to the quilt to keep you comfortable, cool and dry.

Convuluted Foam

Super-soft, pressure-relieving convoluted foam is made with ridges to alleviate aches and pains. It molds to the contours of your body, providing just the right amount of support where you need it most.

High Density Support Foam

High-density comfort and support foams create a firm sleeping surface and provides more support than standard foam. Better pressure relief allows you to more easily enter deep sleep for a great night's rest.
