

# A.H.BEARD®

HANDCRAFTED LUXURY SINCE 1899

## Ancestry Opulent

### Compression Hand Tufting

Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.

### Natural Cotton

High-quality, natural cotton fiber is lightweight, hypoallergenic, recyclable, and biodegradable. Used in textiles for more than 6,000 years, it keeps your sleeping environment cool and comfortable.

### Merino Wool

Only the finest Merino wool is used in our quilting comfort. Merino wool traps air in the sleeping surface, enabling micro-climate control that cannot be artificially manufactured in polyester fibers. The resulting regulation of body temperature and humidity ensures a more comfortable night's sleep.

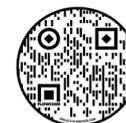

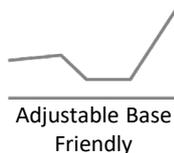

### Ultra Micro Comfort Coils, Micro Comfort Coils, Airflow Micro Comfort Coils, & Mini Comfort Coils

Comfort coils are durable and responsive; they won't sag or lose shape over time, conforming to body shape whilst minimizing partner disturbance. The unique combination of comfort coils, hand tufted together with natural fibers and premium nested pocket support system provide a long-lasting mattress with a distinct luxurious feel.

### Hand Tied Calico Encased Pocket Spring

Pocket coils are sewn into calico fabric pockets under tension to ensure they are power packed for rebound performance. The pocket springs are nested together to provide a level sleeping surface and arranged in a honeycomb to ensure springs don't separate or roll together. Each spring to moves independently and contours to the shape of your body.
