

Dr. James B. Maas, Ph.D., “The Sleep Doctor”
Retired Cornell Professor, Health & Performance Consultant

The Back Performance collection is a result of our strategic collaboration with Dr. James Maas.

It is designed to align performance attributes with the real issues preventing restorative sleep.

We use the absolute best materials and construction techniques to address each sleep issue.

Better Sleep for a Better,
More **Active Tomorrow**

Support Your **Active Lifestyle**

No Matter What Kind of **Athlete** You Are

Sleep plays a major role in athletic performance. The quality and amount of sleep you get is often the key to performing your best.

The Back Performance collection reflects a balanced combination of comfort and support that delivers every type of athlete the optimum sleep system for a better, more active tomorrow.

Designed for fitness-focused, active lifestyles, the Back Performance collection reenergizes your body with deep, restorative sleep.

TEMP REGULATION

PCM Cooling Fabric

The new PCM cooling cover gives you an initial cooling sensation. This, combined with the breathable under-layers of the Back Performance mattress helps you fall asleep faster and ensures a comfortable night's.

Silk, Wool & Cashmere Blend

Silk, wool and cashmere naturally regulate temperature and wick away moisture. We add the perfect blend of these three natural fibers to the quilt to keep you comfortable, cool and dry.

PRESSURE RELIEF

Cooling Gel Quilting Foam

The introduction of gel to plush quilting foam adds pressure relief and more airflow throughout the mattress.

Convuluted Foam

Super-soft, pressure-relieving convoluted foam molds to the contours of your body, providing just the right amount of support where you need it most.

SUPPORT

800 High Density Pocket Spring

800 pocketed coils, made from tempered recycled railroad steel, are encased in foam to provide optimal conformability and support while minimizing motion transfer.

Latex Lumbar Support

14 ILD plush latex lumbar support provides extra support where you need it most: the center third of your body.
