

A Solid Night's Sleep

Classic *American*

OUR PROMISE

Rest easy tonight knowing that your HD Super Duty mattress will perform soundly, night after night. HD offers unmatched value and is designed for those who appreciate traditional quality. No corners are cut, no concessions are made, and only the finest materials are sourced. That is why HD mattresses are backed by a 20-year warranty and a better body impression standard.

Traditional American Inspired *Design*

The HD Super Duty collection draws on traditional mattress-making techniques and is available in two series: Classic and Signature. These collections feature heavy cooling knit fabrics, reinforced leatherette handles, wool rosette compression hand tufting and timeless damask border fabrics.

Classic Collection Design

Signature Collection Design

Durability

that's built to last

Compression Hand Tufting

Hand tufting is a true mark of quality. Durable wool rosettes are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.

Upholstery-Grade Foams

High-density, upholstery-grade foams create a more durable sleeping surface and provide more support than standard foam. Better support allows proper spinal alignment for a great night's rest.

Spring Units

The 1215 steel-encased 13.75-gauge pocket spring unit in the Signature collection and the foam-encased, 12.75 heavy-gauge wire in the Classic collection are the most supportive and strongest spring units on the market today.

Comfort

for a restful night's sleep

Cooling Knit Fabrics

Quilted with a silk, wool and cashmere blend, the phase change material (PCM) gives you an initial cooling sensation to help you fall asleep faster. Combined with the breathable under-layers of the HD Super Duty mattress, the cool ticking ensures a comfortable night's sleep.

Natural Silk, Wool & Cashmere Blend

Silk, wool and cashmere naturally regulate temperature and wick away moisture. We add the perfect blend of these three natural fibers to the quilt to keep you comfortable, cool and dry.

Cushioning High-Density, Gel-Infused Quilting Foam

The introduction of gel to plush quilting foam adds greater pressure relief on the surface of the mattress.

Copper & Graphite High-Density Memory Foam

This quick recovery memory foam represents the ultimate in comfort and technology and features thousands of comfort beads infused with graphite and copper. Better pressure relief allows you to more easily enter deep sleep for a great night's rest.

Signature *Collection*

Wrapped in a houndstooth damask border, Signature beds are ergonomically zoned, have some of the highest support structure available, offer incredible edge support, and are adjustable bed-friendly.

Support

Exclusive 1215 Steel-Encased 13.75-Gauge Pocket Spring:

This pocket spring unit provides firmer, deep-down support and ideal comfort throughout the entire mattress. The high density coil construction allows for more airflow. Combined with compression hand tufting, it ensures optimum support across the surface for proper spinal alignment.

Temperature Regulation

Cooling Knit Fabric: Quilted with a silk, wool and cashmere blend, the phase change material (PCM fabrics) gives you an initial cooling sensation to help you fall asleep faster. Combined with the breathable under-layers of the HD Super Duty mattress, the cool ticking ensures a comfortable night's sleep.

Pressure Relief

Upholstery-Grade Foams: Upholstery-grade, high-density quilting foam and natural OEKO-TEX® certified lumbar latex combined with the finest CertiPUR-US® certified comfort layers provide incredible pressure relief.

Classic *Collection*

Bordered in a handsome plaid fabric with reinforced leatherette handles, Classic collection beds offer unparalleled support and solid American construction.

Support

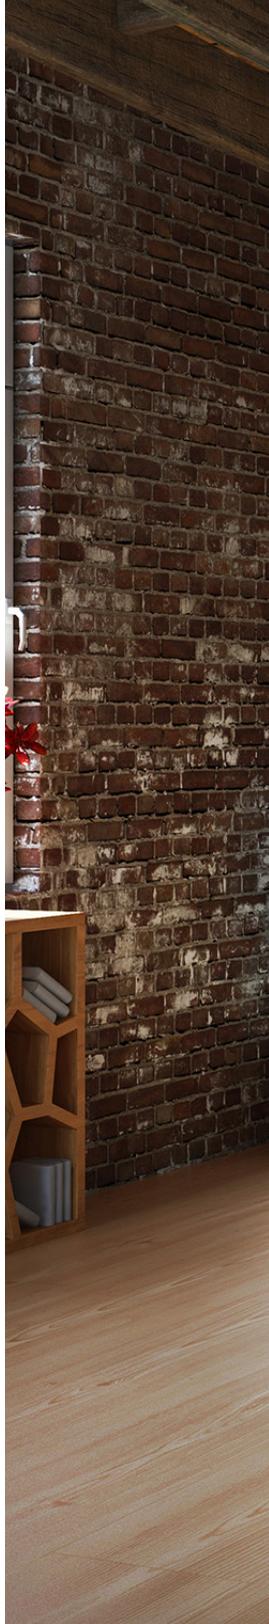

12.75-Gauge, Foam-Encased Heavy Duty Spring Design: The upholstery-grade, foam-encased 12.75-gauge heavy duty spring design combined with hand tufting provides amazing support. 12.75-gauge tempered steel is the heaviest and strongest support system in mattress construction today. Designed for high performance, the high-density coil construction ensures support across the surface for proper spinal alignment.

Temperature Regulation

Cooling Knit Fabric: Quilted with a silk, wool and cashmere blend, the phase change material (PCM fabrics) gives you an initial cooling sensation to help you fall asleep faster. Combined with the breathable under-layers of the HD Super Duty mattress, the cool ticking ensures a comfortable night's sleep.

Pressure Relief

Upholstery-Grade Foams: Upholstery-grade, high-density quilting foam and natural OEKO-TEX® certified latex combined with the finest CertiPUR-US® certified comfort layers provide incredible pressure relief.

Sustainability

CertiPUR-US

All of our foams are CertiPUR-US® certified to ensure they have very low VOC emissions and are free from ozone depleters, chemical flame retardants, mercury and other heavy metals, formaldehyde, and phthalates.

OEKO-TEX

We use latex derived from the rubber tree. Our latex is certified STANDARD 100 by OEKO-TEX®, ensuring that it is free from chemicals harmful to humans and that environmentally harmful substances were not produced during the manufacturing process.

Recycled Steel

Our spring units are made with tempered recycled railroad steel. Recycled train rail and axel steel is a high strength steel which not only helps the environment, but also makes mattress springs virtually indestructible.

MADE IN USA

Made in the USA

Designed, specified and made in the United States. We are continuously working on reducing our environmental footprint through our factory and logistics network.

Quality Guaranteed

Since 1935

Every detail of the HD Super Duty collection has been thoughtfully assembled and thoroughly processed to ensure that we have exceeded the expectations of our customers. Through our pursuit of perfection we deliver a deep, energizing night's sleep, helping to fulfill dreams for a healthy life. HD Super Duty has been independently tested to ensure restful nights for years to come.
