KEY FEATURES

- 1 Luxury Knit Fabric** Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
- 2 Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 3 Silk, Wool & Cashmere Blend** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
- 4 Cooling Gel Quilting Foam** The infusion of cooling gel to plush quilting foam allows it to better mold to the contours of your body providing more pressure relief and support throughout the mattress.
- 5 Quilted Cooling Gel Lumbar** Added to the quilt layers, quilted cooling gel lumbar provides extra support where you need it most and allows a cooler night's sleep.
- 6 Cooling Gel Memory Foam** Provides superior motion separation and pressure relief for a peaceful night's rest with minimal partner disturbance.
- 7 5-Zone High-Density Performance Foam** Reduces pressure points in shoulder and hip areas and increases support in the lumbar zone and behind the knees.
- 8 High-Density Comfort Foam** Creates a durable sleeping surface and provides deep down support and pressure relief.
- 9 800 Nested Pocket Spring** The pocket springs are nested together to provide a level sleeping surface and to ensure springs don't separate. Each spring moves independently and contours to the shape of your body.
- 10 Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
- 11 Recycled Fiber Pad** Need Copy?
