Thrive

KEY FEATURES

- 1 Luxury Knit Fabric** Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
- 2 Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 3 Silk, Wool & Cashmere Blend** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
- 4 High-Density Support Foam** High-quality, dense support foams conform to your body, which diminishes uncomfortable pressure points while you sleep.
- 5 High-Density Recycled Insulator Pad** The high density recycled insulator pad in the upholstery layers provides deep down support and pressure relief.
- 6 High-Density Comfort Foam** Creates a durable sleeping surface and provides deep down support and pressure relief.
- 7 12.75-Gauge Heavy Duty Spring Design** The 12.75-gauge high density coil construction is made of tempered steel and is the heaviest and strongest support system in mattress construction today. Designed for high performance, it ensures support across the surface for proper spinal alignment.
- 8 Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
- 9 Recycled Densified Fiber Pad** Made from recycled plastic and fiber materials and provides optimal mattress support.

KEY FEATURES

- 1 Luxury Knit Fabric** Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
- 2 Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 3 Cooling Gel Quilting Foam** The infusion of cooling gel to plush quilting foam allows it to better mold to the contours of your body providing more pressure relief and support throughout the mattress.
- 4 High-Density Support Foam** High-quality, dense support foams conform to your body, which diminishes uncomfortable pressure points while you sleep.
- 5 High-Density Comfort Foam** Creates a durable sleeping surface and provides deep down support and pressure relief.
- 6 Post-Industrial Recycled Cotton** Content that has been recycled after the manufacturing process but before being consumed is known as post-industrial content, like pre-consumer content. By utilizing recycled materials, such as breathable cotton, we can minimize our carbon footprint and promote a healthier planet, ultimately leading to a more restful sleep for both you and the earth.
- 7 800 Nested Pocket Spring** The pocket springs are nested together to provide a level sleeping surface and to ensure springs don't separate. Each spring moves independently and contours to the shape of your body.
- 8 Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
