KEY FEATURES

- 1 Contemporary Cooling Knit Fabric** Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
- 2 Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 3 Silk, Wool & Cashmere Blend** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
- 4 Cooling Gel Contour Foam** Super-soft, pressure-relieving contour foam is made with ridges to alleviate aches and pains. It molds to the contours of your body, providing just the right amount of support where you need it most.
- 5 Quilted Cooling Gel Lumbar** Added to the quilt layers, quilted cooling gel lumbar provides extra support where you need it most and allows a cooler night's sleep.
- 6 5-Zone High-Density Performance Foam** Reduces pressure points in shoulder and hip areas and increases support in the lumbar zone and behind the knees.
- 7 800 Nested Pocket Spring** The pocket springs are nested together to provide a level sleeping surface and to ensure springs don't separate. Each spring moves independently and contours to the shape of your body.
- 8 Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
- 9 Recycled Densified Fiber Pad** The recycled fiber pad is made from 60% recycled bottles and provides optimal mattress support.
