KEY FEATURES #7431

The Seal of Cotton is a trademark of Cotton Incorporated.

- 1. Designer Luxury Cooling Knit Fabric** Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
- 2. Compression Hand Tufting** Creates loft that supports the body to virtually reduce body impressions. Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.
- 3. Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 4. Silk, Wool, & Cashmere** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
- 5. Cooling Gel Contour Foam** The infusion of cooling gel to plush quilting foam allows it to better mold to the contours of your body providing more pressure relief and support throughout the mattress.
- 6. High-Density Support Foam** High-quality, dense support foams conform to your body, which diminishes uncomfortable pressure points while you sleep.
- 7. Natural Latex Lumbar Support** Provides extra support where you need it most, in the center third of your body, virtually eliminating sagging in the center of the mattress.
- 8. Cooling Gel Memory Foam** Provides superior motion separation and pressure relief for a peaceful night's rest with minimal partner disturbance.
- 9. 5-Zone High-Density Performance Foam** Reduces pressure points in shoulder and hip areas and increases support in the lumbar zone and behind the knees.
- 10. Bio Based Graphite Memory Foam** Sustain HyPURGel™ is an innovative, plant-based, and highly breathable foam that adapts to your body, provides deep support, keeps you cool with superior airflow, and reduces environmental impact through sustainable materials and recyclable design.
- 11. Recycled "Blue" Cotton** Quick recovery memory foam infused with copper, graphite, and silver beads provide cloud-like comfort and temperature regulation.
- 12. 910 Ergonomic HD Pocket Spring** A 910 pocketed spring mattress offers enhanced support and motion isolation with individually wrapped coils, providing optimum support throughout the entire mattress.
- 13. Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
- 14. High-Density Base Foam** Provides deep support under the pocket spring while further reducing motion transfer.
