A.H. Beard Classic Collection Key Features: #7625

1. **Designer Stretch Knit Fabric** Allows airflow which facilitates the wicking of heat & moisture away from the surface. The fabric flexibility creates a surface that seamlessly adapts to the weight and shape of the body.
2. **Compression Hand Tufting** Creates loft that supports the body to virtually reduce body impressions. Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.
3. **Silk, Wool & Cashmere** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
4. **Cooling Gel Contour Foam** The infusion of cooling gel to plush quilting foam allows it to better mold to the contours of your body providing more pressure relief and support throughout the mattress.
5. **Latex Lumbar Support** Provides extra support where you need it most, in the center third of your body, virtually eliminating sagging in the center of the mattress.
6. **Certified Organic Latex** Oeko-Tex certified, hypoallergenic and resistant to dust-mites, mold and mildew, natural latex gently lifts your body, conforms to your unique shape and distribute weight evenly.
7. **Cooling Gel Memory Foam** Provides superior motion separation and pressure relief for a peaceful night's rest with minimal partner disturbance.
8. **High-Density Comfort Foam** Creates a durable sleeping surface and provides deep down support and pressure relief.
9. **Cooling Gel Comfort Foam** The introduction of gel to plush quilting foam adds pressure relief and provides more support throughout the mattress.
10. **1872 Pocket Micro Coil** The micro coils instantly conform to your body to reduce body impressions, provide maximum support and maintain ultimate comfort for you all night long.
11. **High-Density Plush Memory Foam** Quick recovery memory foam provides the greatest level of motion separation and pressure relief.
12. **Recycled "Blue" Cotton** Content that has been recycled after the manufacturing process but before being consumed is known as post-industrial content, like pre-consumer content. By utilizing recycled materials, such as breathable cotton, we can minimize our carbon footprint and promote a healthier planet, ultimately leading to a more restful sleep for both you and the earth.
13. **896 Firm 13.75 Gauge Pocket Spring** The 896 firm pocketed spring unit boasts 13.75-gauge springs for a firmer, deep-down support for ideal comfort throughout the entire mattress.
14. **Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
15. **High-Density Base Foam** Provides optimal support for all the pocket springs.
