### KEY FEATURES #7430

The Seal of Cotton is a trademark of Cotton Incorporated.

1. **Designer Luxury Cooling Knit Fabric**  
Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
2. **Compression Hand Tufting**  
Creates loft that supports the body to virtually reduce body impressions. Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.
3. **Natural FR Rayon Fiber**  
The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
4. **Silk, Wool, & Cashmere**  
Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
5. **High-Density Support Foam**  
High-quality, dense support foams conform to your body, which diminishes uncomfortable pressure points while you sleep.
6. **Natural Latex Lumbar Support**  
Provides extra support where you need it most, in the center third of your body, virtually eliminating sagging in the center of the mattress.
7. **High-Density Recycled Insulator Pad**  
The high density recycled insulator pad in the upholstery layers provides deep down support and pressure relief.
8. **Bio Based Graphite Memory Foam**  
A new generation of plant-based foam, made without ozone depleters, formaldehyde, or phthalates. This 28% bio-based foam provides uniform support, alleviates pressure points, and can be recycled after use to reduce the environmental impact.
9. **Recycled "Blue" Cotton**  
Content that has been recycled after manufacturing but before consumption is known as post-industrial content, like pre-consumer content. By utilizing recycled materials, such as breathable cotton, we can minimize our carbon footprint and promote a healthier planet, ultimately leading to more restful sleep for both you and the earth.
10. **3-Zoned Pocket Spring Design**  
A durable coil system with three support zones: softer 14-gauge coils at the head and foot, and firmer 13-gauge coils in the center for extra back support. This design adds comfort, reduces motion, and provides mattress stability.
11. **Upholstery-Grade Foam Encasement**  
Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
12. **High-Density Base Foam**  
Provides deep support under the pocket spring while further reducing motion transfer.
