### KEY FEATURES #7433

The Seal of Cotton is a trademark of Cotton Incorporated.

- 1. Designer Luxury Cooling Knit Fabric** Made of phase change material that provides an initial cooling sensation to help you fall asleep faster and ensures a comfortable night's sleep from start to finish.
- 2. Compression Hand Tufting** Creates loft that supports the body to virtually reduce body impressions. Hand tufting is a true mark of quality. Durable fasteners are inserted by hand through all layers to secure the upholstery. This time-intensive technique dramatically reduces body impressions and provides superb support.
- 3. Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 4. Silk, Wool, & Cashmere** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
- 5. Cooling Gel Contour Foam** The infusion of cooling gel to plush quilting foam allows it to better mold to the contours of your body providing more pressure relief and support throughout the mattress.
- 6. Natural Latex Lumbar Support** Provides extra support where you need it most, in the center third of your body, virtually eliminating sagging in the center of the mattress.
- 7. Certified Organic Firm Latex** GOLS certified, hypoallergenic and resistant to dust mites, mold and mildew, natural latex gently lifts your body, conforms to your unique shape and distribute weight evenly.
- 8. High-Density Plush Memory Foam** Quick recovery memory foam provides the greatest level of motion separation and pressure relief.
- 9. 5-Zone High-Density Performance Foam** Reduces pressure points in shoulder and hip areas and increases support in the lumbar zone and behind the knees.
- 10. Cooling Gel Comfort Foam** The introduction of gel to plush quilting foam adds pressure relief and provides more support throughout the mattress.
- 11. Bio Based Graphite Memory Foam** A new generation of plant-based foam, made without ozone depleters, formaldehyde, or phthalates. This 28% bio-based foam provides uniform support, alleviates pressure points, and can be recycled after use to reduce the environmental impact.
- 12. Recycled "Blue" Cotton** Content that has been recycled after manufacturing but before consumption is known as post-industrial content, like pre-consumer content. By utilizing recycled materials, such as breathable cotton, we can minimize our carbon footprint and promote a healthier planet, ultimately leading to more restful sleep for both you and the earth.
- 13. 910 Ergonomic HD Pocket Spring** A 910 pocketed spring mattress offers enhanced support and motion isolation with individually wrapped coils, providing optimum support throughout the entire mattress.
- 14. Upholstery-Grade Foam Encasement** Permanently seals the innerspring 360 degrees around to deliver a durable, more comfortable seating edge with 20% more sleeping area.
- 15. High-Density Base Foam** Provides deep support under the pocket spring while further reducing motion transfer.
