

Radiance *Extra Firm*

ORIGINAL COLLECTION

Designed with the finest attention to detail, every mattress in the Nature's Spa collection features environmentally-friendly materials carefully selected to provide optimum pressure relief, temperature regulation and support. Our mattresses conform instantly to your body's unique shape, supporting you where your body needs it most.

#2010

Radiance *Extra Firm*

KEY FEATURES #2010

- 1. Designer Tencel Fabric** The Tencel fabric adds a touch of eco-friendly luxury to the mattress. Silky-soft, breathable, and moisture-wicking, it creates a cool and refreshing sleep surface while being gentle on both your skin and the planet.
- 2. Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 3. Silk, Wool & Cashmere** Naturally regulates temperature and wicks away moisture. The perfect blend is added to the quilt to keep you comfortable, cool and dry.
- 4. High-Density Support Foam** High-quality, dense support foams conform to your body, which diminishes uncomfortable pressure points while you sleep.
- 5. Certified Organic Latex** Hypoallergenic, antimicrobial, and resistant to dust mites, mold, and mildew. The responsive structure of organic latex gently lifts and conforms to the body, evenly distributing weight for balanced support and pressure relief.
- 6. High-Density Copper-Infused Memory Foam** Copper-infused memory foam is designed to stay cool, clean, and more supportive by combining the pressure-relieving comfort of memory foam, promoting a fresher, more restorative sleep experience.
- 7. 4160 Pocket Duo Micro Coil** Featuring two coils in every pocket, one firm and one plush, this system creates a uniquely responsive sleep surface. It cushions pressure points while maintaining stable, consistent support throughout the night.
- 8. High-Density Comfort Topper** An extra layer of support that provides better edge support and deep-down comfort.
- 9. High-Density Foam Core** Offers long-lasting support that virtually eliminates partner disturbance, counteracts any spring effect in the mattress and provides excellent support and pressure relief.
- 10. Recycled Fiber Pad** The recycled fiber pad is crafted using repurposed materials, offering optimal mattress support while helping to reduce waste and promote sustainability.
