### HYBRID COLLECTION

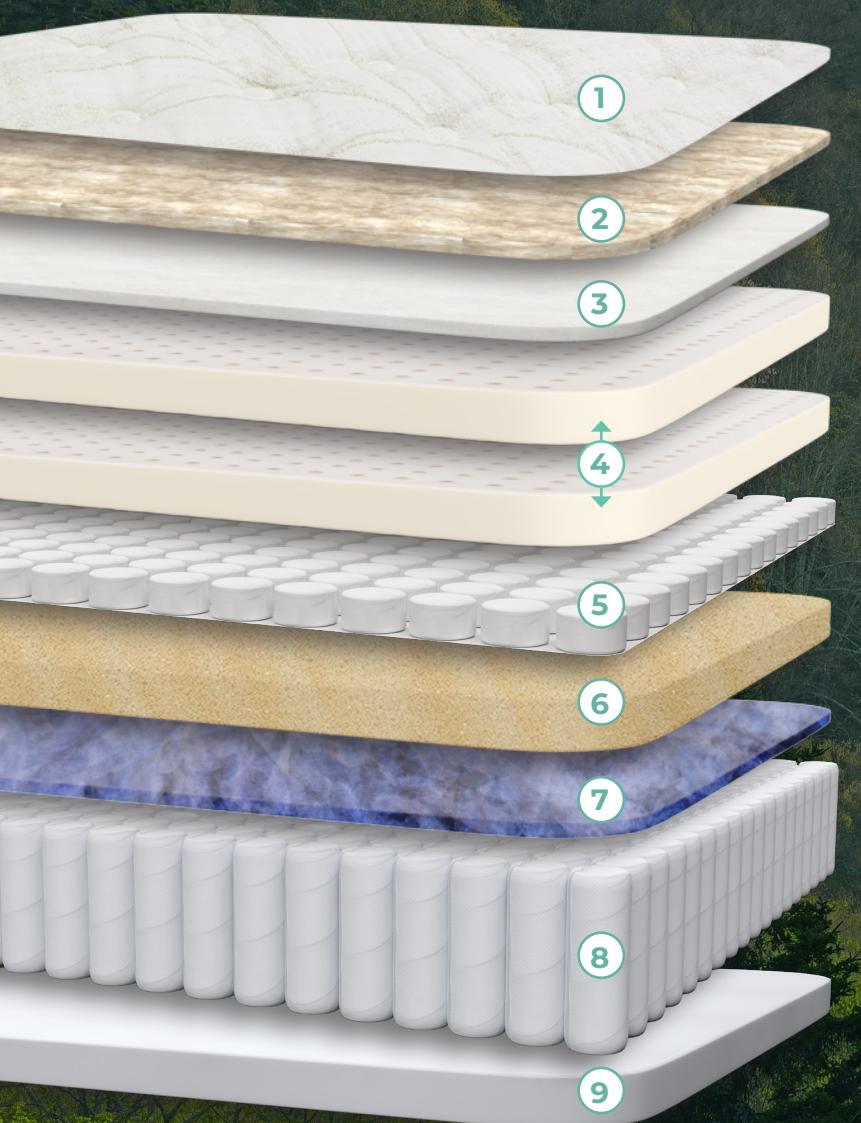

Designed with the finest attention to detail, every mattress in the Nature's Spa collection features environmentally friendly materials carefully selected to provide optimum pressure relief, temperature regulation and support. Our mattresses conform instantly to your body's unique shape, supporting you where your body needs it most.

#2012

# Whispering Pines Luxury Firm

## KEY FEATURES #2012 The Seal of Cotton is a Trademark of Cotton Incorporated.

- 1. Designer Tencel Fabric** The Tencel fabric adds a touch of eco-friendly luxury to the mattress. Silky-soft, breathable, and moisture-wicking, it creates a cool and refreshing sleep surface while being gentle on both your skin and the planet.
- 2. 100% Natural Lambswool Blend** New Zealand wool and lambswool naturally regulate temperature and wick away moisture. We add the perfect blend of these two natural fibers to the quilt to keep you comfortable, cool, and dry.
- 3. Natural FR Rayon Fiber** The fire-retardant fiber we use is the most natural design made from a Rayon and Silicate combination.
- 4. Certified Organic Latex** Hypoallergenic, antimicrobial, and resistant to dust mites, mold, and mildew. The responsive structure of organic latex gently lifts and conforms to the body, evenly distributing weight for balanced support and pressure relief.
- 5. 4160 Pocket Duo Micro Coil** Featuring two coils in every pocket, one firm and one plush, this system creates a uniquely responsive sleep surface. It cushions pressure points while maintaining stable, consistent support throughout the night.
- 6. High-Density Copper Infused Memory Foam** Copper-infused memory foam is designed to stay cool, clean, and more supportive by combining the pressure-relieving comfort of memory foam, promoting a fresher, more restorative sleep experience.
- 7. Recycled "Blue" Cotton** Content that has been recycled after manufacturing but before consumption is known as post-industrial content, like pre-consumer content. By utilizing recycled materials, such as breathable cotton, we can minimize our carbon footprint and promote a healthier planet, ultimately leading to more restful sleep for both you and the earth.
- 8. 952 Zoned Pocket Spring** Designed with firmer 14.75 gauge coils through the center and 15.5-gauge coils at the head and foot, this system provides individualized support where your body needs it most. The result is better spinal alignment, balanced pressure relief, and a more comfortable night's sleep.
- 9. High-Density Base Foam** Provides optimal support for all the pocket springs.
