# Nature's Spa®

Sleep. The most natural and essential need for your body.

The Nature's Spa® collection has been carefully, expertly designed and crafted to deliver the quality sleep your body craves and deserves to replenish and rejuvenate each night. An abundance of carefully curated natural and sustainable materials make Nature's Spa the essence of your wellness journey.

This exquisite collection is impeccably handcrafted in the USA by Paramount Sleep Company®, a fourth-generation, family-owned and operated mattress manufacturer since 1935. People. Product. Process. Planet. These have been our core values for 90 years and will continue to guide us for generations to come.

## Comfort

### *Silk, Wool, and Cashmere*

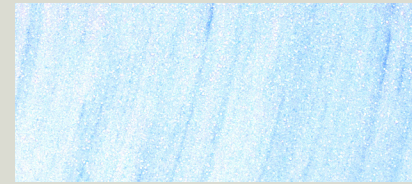

The perfect blend of these fibers added to the quilt offer natural temperature regulation and moisture wicking.

### *Cooling Gel Contour Foam*

The ridges design of the super-soft, pressure relieving foam alleviates aches and pains, molding to body contours to provide optimum support where needed.

### *Copper-Infused Memory Foam*

Copper-infused memory foam is designed to stay cool, clean, and more supportive by combining the pressure-relieving comfort of memory foam, promoting a fresher, more restorative sleep experience.

## Sustainable Materials

### *Designer Tencel Fabric*

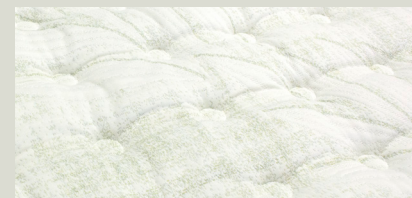

The Tencel fabric adds a touch of eco-friendly luxury to the mattress. Silky-soft, breathable, and moisture-wicking, it creates a cool and refreshing sleep surface while being gentle on both your skin and the planet.

### *Natural FR Rayon Fiber*

The fire-retardant fiber is the most natural design made from a rayon and silicate combination.

### *Certified Organic Latex*

Hypoallergenic, antimicrobial, and resistant to dust mites, mold, and mildew. The responsive structure of organic latex gently lifts and conforms to the body, evenly distributing weight for balanced support and pressure relief.

## Support

### *4160 Pocket Duo Micro Coil*

Featuring two coils in every pocket, one firm and one plush, this system creates a uniquely responsive sleep surface. It cushions pressure points while maintaining stable, consistent support throughout the night.

### *High-Density Foam Core*

Offers long-lasting support that virtually eliminates partner disturbance, counteracts any spring effect in the mattress and provides excellent support and pressure relief.

### *952 Zoned Pocket Spring*

Designed with firmer 14.75 gauge coils through the center and 15.5-gauge coils at the head and foot, this system provides individualized support where your body needs it most. The result is better spinal alignment, abalanced pressure relief, and a more comfortable night's sleep.

## Sustainability & Trust

The Seal of Cotton is a Trademark of Cotton Incorporated.

Paramount Sleep Company is the only mattress manufacturer to carry this prominent trademark of the Cotton Incorporated, signifying this product contains 90% blue cotton and 100% pure cotton in its upholstery.

We use the most sustainable coil units made from recycled railroad steel and fiber pads made from 60% recycled plastic bottles.

Natural organic latex is derived from the rubber tree and is valued for its responsive and supportive comfort. It gently conforms to the body while promoting airflow, helping maintain temperature. It is naturally hypoallergenic, antimicrobial, and provides pressure-relieving support.

Paramount Sleep Company is a CertiPUR-US® certified manufacturer. This ensures our products have very low VOC emissions, and are free from ozone depleters, chemical flame retardants, mercury and other heavy metals, formaldehyde, and phthalates.

HANDCRAFTED IN THE USA

Our products are designed, specified and made in the United States. We work continuously to reduce our environmental impact from production through logistics.
