Medium Euro-Top

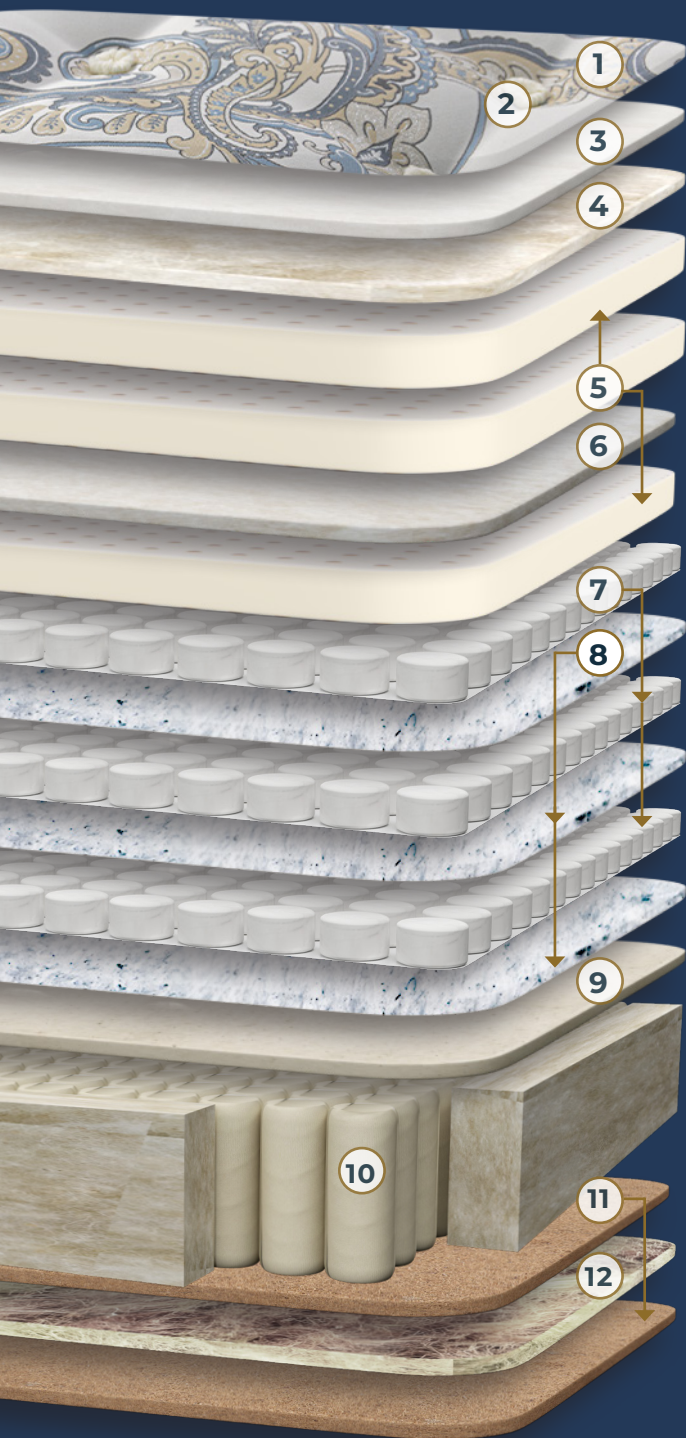

Paramount Collection

Classic East Coast luxury intersects next-generation innovation in the new Paramount line. The collection features innovative state of the art materials like natural latex, copper, graphite & silver high-density memory foam, gel-infused memory foam and German engineered pocket springs.

Arthur 6.0

Medium Euro-Top

KEY FEATURES #6982

- 1. DESIGNER LUXURY DAMASK FIBER** Damask is a woven, reversible patterned fabric, typically made from silk, wool, linen, cotton, or synthetic fibers that is known for its durability and resistance to wear and tear, while its smooth and lustrous surface lends a luxurious look.
- 2. COMPRESSION HAND TUFTING** A true mark of quality, durable fasteners applied by hand secure all upholstery layers for reduced body impressions, enhance support, and longevity.
- 3. NATURAL FR RAYON FIBER** The fire-retardant fiber is the most natural design made from a rayon and silicate combination.
- 4. 100% NATURAL LAMBSWOOL BLEND** New Zealand wool and lambswool naturally regulate temperature and wick away moisture. We add the perfect blend of these two natural fibers to the quilt to keep you comfortable, cool, and dry.
- 5. CERTIFIED ORGANIC MEDIUM LATEX** Hypoallergenic, antimicrobial, and resistant to dust mites, mold, and mildew. The responsive structure of organic latex gently lifts and conforms to the body, evenly distributing weight for balanced support and pressure relief.
- 6. MERINO AND JOMA WOOL® BLEND** Merino wool contains air spaces, enabling micro-climate control. Joma Wool® is crimped to increase bulk, springiness, comfort, and longevity. The resulting regulation of body temperature and humidity ensures a more comfortable night's sleep.
- 7. 1872 POCKET MICRO COILS** The micro coils instantly conform to your body to reduce body impressions, provide maximum support and maintain ultimate comfort for you all night long.
- 8. "BLUE" COTTON** Derived from the denim manufacturing process, "blue" cotton gives new life to premium, natural fibers resulting in breathable comfort that supports restful sleep and a sustainable future.
- 9. RECYCLED COTTON & WOOL** Cotton is breathable, allowing for more airflow throughout the mattress. Wool helps to naturally regulate temperature while keeping the body cool and dry.
- 10. HAND-TIED CALICO-ENCASED POCKET SPRING** Breathable, natural cotton is hand-tied around individual pocket springs, offering support just where the body needs it and alleviating pressure points.
- 11. COCONUT FIBER PAD** Natural and sustainable, our plant-derived coconut fiber support pad is made from coconut fiber and provides optimal mattress support while eliminating the need for polyurethane foam.
- 12. CORN FIBER PAD** Natural and sustainable, our plant-derived fiber support pad is made from corn and provides optimal mattress support while eliminating the need for polyurethane foam.
