KEY FEATURES #7421

- 1. Designer Luxury Cooling Knit Fabric** A high-end, stylish knit material crafted for mattresses that combines a soft, upscale feel with cooling technology to promote airflow and maintain a comfortable sleep temperature.
- 2. Compression Hand Tufting** A true mark of quality, durable fasteners applied by hand secure all upholstery layers for reduced body impressions, enhance support, and longevity..
- 3. Natural FR Rayon Fiber**
The fire-retardant fiber is the most natural design made from a rayon and silicate combination.
- 4. Silk, Wool, & Cashmere** The perfect blend of these fibers added to the quilt offer natural temperature regulation and moisture wicking.
- 5. Cooling Gel Contour Foam** The ridges design of the super-soft, pressure relieving foam alleviates aches and pains, molding to body contours to provide optimum support where needed.
- 6. High-Density Support Foam** High-quality, dense support foams conform to your body, which diminishes uncomfortable pressure points while you sleep.
- 7. Natural Latex Lumbar Support** Added to the center third of the mattress, this natural material enhances support where the body needs it most.
- 8. High-Density Copper Infused Memory Foam** Copper-infused memory foam is designed to stay cool, clean, and more supportive by combining the pressure-relieving comfort of memory foam with copper's natural ability to conduct heat away from the body and resist microbes, helping promote a fresher, more restorative sleep experience.
- 9. High-Density Comfort Topper Block** An extra layer of support that provides better edge support and deep-down comfort.
- 10. "Blue" Cotton** Derived from the denim manufacturing process, "blue" cotton gives new life to premium, natural fibers resulting in breathable comfort that supports restful sleep and a sustainable future.
- 11. 12.75-Gauge Heavy Duty Spring Design** The 12.75-gauge spring unit is one of the strongest support systems in the industry, engineered to deliver consistent support across the entire sleep surface and proper spinal alignment. It is encased by high-density, upholstery grade foam for durability and edge-to-edge stability.
- 12. Upholstery-Grade Foam Encasement** In addition to sealing the innerspring, the encasement delivers a durable, comfortable seat edge and 20% more sleep surface to the mattress.
- 13. High-Density Base Foam** Provides optimal base support for all the Heavy Duty Springs.
