KEY FEATURES #7802

- 1 Luxury Knit Fabric** Made of luxurious phase change material that ensures a consistently comfortable night's sleep from start to finish.
- 2 Natural FR Rayon Fiber** The fire-retardant fiber is the most natural design made from a rayon and silicate combination.
- 3 Silk, Wool & Cashmere** The perfect blend of these fibers added to the quilt offer natural temperature regulation and moisture wicking.
- 4 Cooling Gel Contour Foam** The ridges design of the super-soft, pressure relieving foam alleviates aches and pains, molding to body contours to provide optimum support where needed.
- 5 5-Zone High-Density Performance Foam** The zoned design reduces pressure points in the shoulders and hip and enhances support to the lumbar and knees.
- 6 Cooling Gel Comfort Foam** The introduction of gel to plush quilting foam adds pressure relief and provides more support throughout the mattress.
- 7 12.75-Gauge Heavy Duty Spring Design** The 12.75-gauge spring unit is one of the strongest support systems in the industry, engineered to deliver consistent support across the entire sleep surface and proper spinal alignment. It is encased by high-density, upholstery grade foam for durability and edge-to-edge stability.
- 8 Upholstery-Grade Foam Encasement** In addition to sealing the innerspring, the encasement delivers a durable, comfortable seat edge and 20% more sleep surface to the mattress.
- 9 High-Density Base Foam** Provides optimal support for all the heavy duty springs.
- 10 Recycled Fiber Pad** The recycled fiber pad is crafted using repurposed materials, offering optimal mattress support while helping to reduce waste and promote sustainability.
